

Klove has assisted me in my grief of losing my father, being downsized from my corporate job (with only 4 1/2 yrs before retiring) and being held on 'stop loss' while serving in the military reserves.

If Klove was not available for me to listen to and uplift me, I would not know where to turn for help during my grief.

I know Klove touches people who are desperately seeking a new life and to turn their lives around for better. All you have to do is tune in and you will hear people telling how listening to Klove prevented them from committing suicide or helped them get their lives straightened out by giving their hearts to God. Now they are serving the communities in which they lived, have reconciled with family members and loved ones, etc.
